Q25. Last year, President Biden signed into law an executive order called America the Beautiful, also known as 30x30. This initiative is working to conserve at least 30 percent of lands and waters across the United States. Right now, only 12% of land and 25% of freshwater and oceans are under permanently protected status. Do you strongly approve of this effort, somewhat approve, somewhat disapprove or strongly disapprove of the America the Beautiful initiative?

Q27. Below you will see two opposing arguments on the America the Beautiful initiative and be asked which one you agree with more.

Supporters of the America the Beautiful initiative say we are in the middle of a nature and climate crisis, and we need to take bold action to protect our precious outdoors and public lands, including by actively supporting locally driven conservation efforts to protect natural areas and wildlife for today and for future generations.

Opponents of the America the Beautiful initiative say the federal government needs to stop coming into our states and trying to take our lands. This order is nothing more than a federal government land-grab that will hurt our hard working farmers and ranchers by restricting the land they are able to work on and how they are able to work.

Does what you just read make you more likely to support or oppose the America the Beautiful initiative? Does it make you...?

Asked of those in Colorado

Q31A. The Colorado Outdoor Recreation and Economy, or CORE Act, would protect over 400,000 acres of land in the state through new wilderness, recreation, and conservation areas in the Thompson Divide, the Continental Divide, the San Juan Mountains, and the Curecanti National Recreation Area. It would also establish new protections for historic Camp Hale, where the storied Tenth Mountain Division trained during World War Two. Do you support or oppose giving national monument protections to these areas?
